FALL PLANTING

Fall is an ideal time to plant most kinds of trees, shrubs, and roses. Only such plants are listed in this catalog which will do well when planted in the fall.

There is a simple reason for the better success of fall planting. The earth becomes firmly packed about the roots during the winter, and the soil gets plenty of moisture during that time.

As a result the plants make an early and vigorous start the following spring, much earlier and much better than when planted in the spring. Periods of dry weather do not menace such trees.

Therefore, when you have the choice, plant in the fall for best results.

GARDEN FOR ICTORY

GARDENING—to make plants grow and bloom and fruit—is one of the best things that life has in store for you.

Millions of Victory gardeners, inspired by the Government-sponsored "Garden for Victory" Program joined this year the ranks of garden friends, and many of them experienced for the first time the pleasure and satisfaction resulting from planting a garden.

We welcome Victory gardeners among our family of garden friends, and we think this book will be of some help to many of you in getting acquainted with beautiful trees and plants. Carefully and conscientiously written, it should be well worth your time to be read and studied thoroughly.

Plant one tree or select a long list of them. We know that they will make your life happier than ever.

DWARF FRUIT TREES

Dwarf Fruit Trees are ideal ornamental plants, combining beauty and utility in a most delightful way. They grow no taller than a man can reach, and produce extra large, delicious fruit. They do not spread more than 10-15 ft. in diameter. Many of them bear fruit the first year planted, and they produce considerable crops a few years after planting. They thrive in any average garden soil.

It is a pleasure to watch those small trees when they are covered with beautiful blossoms in the spring, and when they are loaded with delicious fruit in the fall.

We are one of the few nurseries supplying Dwarf Fruit Trees budded on dwarfing rootstocks which insure dwarf habit and early yields. Only dwarf pear trees are available at present.

DWARF VERTICAL CORDONS

Vertical Cordons are espalier trees which require a minimum of space, and will create a striking effect. They can be planted 2 ft. apart, and are most attractive when used as a border along a walk or a wall. A dozen or more trees can be planted in the same space that a single Standard fruit tree would require.

Vertical Cordons have become the most popular garden type of tree in Europe, and they are now available in America. They are easy to care for. Directions will be included in each shipment.

Only pear trees can be supplied in Vertical Cordons.

BEARING-AGE STANDARD FRUIT TREES

These are wonderful trees; many of them have already fruited in the nursery, and most of them are again loaded with fruit buds.

Please note, however, that they must become established in their new location in your garden before they bear again. Generally they begin to fruit the second year after planting.

WHAT TO PLANT: DWARF OR STANDARD FRUIT TREES?

Dwarf Fruit Trees should be preferred where space is limited. They are the ideal garden-type of tree for city and suburban homes while Standard Fruit Trees should be planted where sufficient space is available.

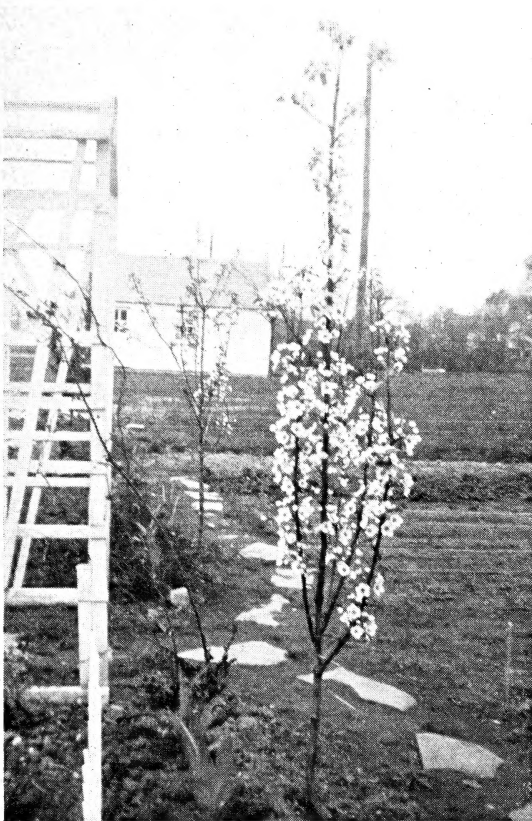

BEST SIZES AND GRADES OF FRUIT TREES TO PLANT

Our experience leads us to advise you to plant only the best grades. It pays better to plant a few large trees instead of twice as many small inferior trees.

Fruit Trees are an investment for decades, and sometimes for generations. The purchase price of a fruit tree does not mean much when you realize that 1 or 2 bushels of fruit will pay for it.

DWARF PEAR TREES, planted Spring 1941, photographed a year later. Mrs. H. M. Van De Voorde, Schenectady, N. Y., who planted these trees gave us the following comment on June 20, 1942:

"I am enclosing pictures of the Dwarf Pear Trees you sent us last year, and they now have dozens of perfect little pears on them. We are certainly delighted with them."

We are always glad to hear how well our trees are doing, and we think that this excellent success as reported by Mrs. Van De Voorde may inspire more garden friends to plant some Dwarf Fruit Trees which are so easy to grow and to care for.

DWARF FRUIT TREE COLLECTION (Group No. 1)

6 Dwarf Pear Trees (Bartlett, Cayuga, Clapp's Favorite, Duchesse d'Angouleme, Gorham, and Seckel) for only \$5.00.

If you prefer Vertical Cordons we will supply 6 of them for only \$6.00.

Available in

BARTLETT. September. The leading commercial pear, and the best for canning. Tree bears abundantly. Fruit golden yellow, flesh tender and juicy, with a delicious musky flavor.

Dw. VC.
BA. St.

BEURRE BOSCS. November-December. Very large, gourd shaped pear, brownish yellow in color. White flesh, rich and delicious. Tree very productive.

BA. St.

BEURRE d'ANJOU. October-November. Large light green, with russet and red cheek. Flesh buttery and melting, with sprightly vinous flavor. A splendid keeper.

Dw. VC. St.

CAYUGA. September-November. A new pear, originated at N. Y. State Experiment Station, Geneva, N. Y. Averages as large as Bartlett, and possesses a delectable flavor. The quality is better than any other pear except Seckel, its parent.

Dw. VC.
St.

CLAPP'S FAVORITE. October. Large yellow pear, fine texture, melting, with a rich, sweet delicate flavor. Tree hardy and very productive. Thrives where other varieties fail.

Dw. VC.
BA. St.

DUCHESS d'ANGOULEME. October-November. Excites admiration because of its enormous size and high quality. Bears early and abundantly. Blight resistant.

Dw. VC.

FLEMISH BEAUTY. September-October. Large yellow pear, cheek overspread with a marbled red blush. Flesh yellowish white, juicy, sweet, with a very good quality.

Dw.

GORHAM. September. A new variety. Fruit resembles Bartlett, but ripens 2 weeks later and keeps better. The tree is notably resistant to blight.

Dw. VC.
St.

KIEFFER. November-Spring. Large yellow pear. Flesh very juicy, with a marked musky aroma. If stored in a cool place will keep until June.

Dw. VC.
BA. St.

SECKEL. August-October. A delicious little pear that is the standard of excellence in its class. Yellowish-brown with red cheek. Very productive.

Available in

- BALDWIN.** November-May. A leading commercial sort in New York and New England. Large, bright red. Tree vigorous and productive. St.
- CORTLAND.** November-February. A comparatively new apple that combines the flavor of McIntosh, and the ability to stand handling of the Baldwin. An excellent variety to plant as a cross pollinator. BA. St.
- DELICIOUS.** December-February. One of the finest winter apples. Dark red with crisp, fine grained flesh of excellent flavor. Hardy, vigorous, and annual bearer. St.
- EARLY MCINTOSH.** August. This apple with its pleasing taste and appearance is very similar to McIntosh. Bright solid red, flesh juicy with a sprightly sub-acid flavor. BA. St.
- GOLDEN RUSSET.** November-April. Attractive yellow russeted apple. Long keeper. BA. St.
- KENDALL.** October. Dark red McIntosh seedling. Productive, good keeper. Annual bearer. Most attractive and promising. BA. St.
- MACOUN.** November. Another McIntosh seedling, dark red and richly flavored. A customer from Pennsylvania wrote us: "I had a tree of Macoun to bear, and we think it is the finest apple we ever tasted". St.
- MCINTOSH RED.** October. A leading commercial sort for New York and New England. A very attractive apple of the highest quality. Hardy, bears young and annually. BA. St.

APPLES—Continued

Available in

MILTON. September. A beautiful pinkish red apple, flesh tender, very white, with a refreshing aroma. Early and annual bearer. This is an excellent new variety which can be highly recommended.	BA. St.
NORTHERN SPY. November-April. Large red and yellow apple of fine quality. Leading commercial sort.	St.
RAMBO. November-December. An old favorite of high quality, crisp, tender, juicy, and aromatic. The color is pale greenish yellow, striped with carmine.	BA. St.
RED ASTRACHAN. August. Handsome deep crimson apple, excellent for cooking. Hardy and a good bearer.	St.
RED GRAVENSTEIN. September-October. An excellent autumn apple, tender, juicy, with slightly aromatic flavor.	St.
RED ROME BEAUTY. November-May. This beautiful apple is brilliant solid red in color, flesh juicy and aromatic. A dependable cropper, highly recommended.	BA. St.
RHODE ISLAND GREENING. November-March. Large yellowish green apple of fine quality. An abundant yielder and excellent keeper.	BA. St.
STAYMAN'S WINESAP. December-April. Winesaps prefer a long season. For this reason we recommend their planting only in more Southern gardens. The fruit is yellow striped with red, and the flesh has a pleasing flavor. Trees start bearing annual crops at an early age.	St.
TOLMAN SWEET. November-April. The leading sweet apple, yellow tinged with red. Hardy and productive.	BA. St.
WEALTHY. October-January. Beautiful, brilliant red apple of fine quality. Exceptionally hardy and an early bearer.	BA. St.
YELLOW DELICIOUS. October-March. Golden yellow apple, large, juicy, and exceptionally fine quality. Many say this is the finest yellow apple. It bears young and heavily.	St.
YELLOW TRANSPARENT. August. The best early yellow apple. Excellent flavor. Trees hardy and abundant bearers.	BA. St.

QUINTUPLET APPLE TREES

This new type of tree produces 5 varieties of apples on one tree.

The varieties are **Yellow Transparent**, **McIntosh Red**, **Cortland**, **Delicious**, and **Yellow Delicious**. They are selected so that the trees will provide fruit from early summer until late in the season. You pick your first crop of apples in mid-summer from the Yellow Transparent. McIntosh Red ripens in the fall, and Cortland, Delicious, and Yellow Delicious will provide fruit throughout the winter.

One Quintuplet Apple Tree planted by itself can be expected to produce satisfactory crops without requiring another tree for pollination.

BING. July. One of the best black sweet cherries. Few equal it in size and productiveness, and none surpass it in quality.	BA. St.
BLACK TARTARIAN. June. Sweet, bright purplish black. Juicy and rich. An immense bearer.	BA. St.
EARLY RICHMOND. June. The earliest sour cherry, dark red. Fruits soon after planting, and bears heavily every year.	BA. St.
ENGLISH MORELLO. August. Late sour cherry, good size, almost black and sprightly acid. Tree bears young and heavy. Hardy for extremely cold latitudes. Low growing like a dwarf tree. Plant the English Morello if your space is limited.	BA. St.
LAMBERT. July. Sweet, dark purplish-red, highly aromatic. This is the largest of all cherries we know. The tree produces enormous crops every year.	BA. St.
MONTMORENCY. July. The leading sour cherry, and the best pie cherry. Fruit is good-sized, fine flavored and bright, clear red.	BA. St.
NAPOLEON. July. Sweet, large, pale yellow with bright red cheek.	BA. St.
SCHMIDT'S BIGARREAU. July. Sweet, very large, deep mahogany color. Very juicy.	BA. St.
WINDSOR. July. Sweet, very large, dark red, firm and rich.	BA. St.

BEARING-AGE FRUIT TREE COLLECTION (Group No. 3)

8 Bearing-Age Standard Fruit Trees, 6 to 8 ft., with Fruit Buds

2 Apples (McIntosh Red, Rhode Island Greening)

2 Pears (Bartlett, Beurre Boscs)

2 Cherries (Sweet or Sour)

2 Plums (Reine Claude, Stanley Prune)

Total 8 Trees for only \$9.00.

ABUNDANCE. August. Fruit large, bright cherry red. Flesh juicy and tender. Freestone. Excellent for canning.

BA. St.

BURBANK. August. Dark red, unsurpassed for beauty and productivity. Bears very young. Should be interplanted with Abundance for proper pollination.

BA. St.

ITALIAN PRUNE (Fellenburg). September. Dark purple, juicy and delicious. Freestone.

BA. St.

REINE CLAUDE (Green Gage). September. Large, pale yellow, marked with red. Good bearer. The finest plum for eating and canning.

BA. St.

SHROPSHIRE DAMSON. October. Medium size dark purple fruit produced in thick clusters. The tree is enormously productive, bearing a load of fruit annually. Excellent canner.

BA. St.

STANLEY PRUNE. September. Large, dark blue, juicy and sweet. The tree comes into bearing young, bears annually, and the fruit stays on the tree in good condition for a long while.

BA. St.

THE HOME ORCHARD (Group No. 4)

This collection of trees can be expected to yield an ample supply of fruit for an average family throughout the year.

4 Apples (Cortland, McIntosh Red, Red Rome Beauty, Rhode Island Greening), 2 year.

3 Pears (Bartlett, Beurre Boscs, Clapp's Favorite), 2 year.

3 Cherries (Black Tartarian, Montmorency, Napoleon), 2 year.

2 Plums (Reine Claude, Stanley Prune), 2 year.

3 Peaches (Elberta, Golden Jubilee, Hale Haven), 1 year.

Total 15 Standard Fruit Trees, 5 to 7 ft., Extra Heavy, for only \$9.50.

VALIANT—An excellent new Peach from Canada.

PEACHES

BELLE OF GEORGIA. September. Large, attractive white-fleshed peach. Hardy and productive. Freestone.

ELBERTA. Late September. The greatest commercial variety on the market. Will thrive where any peach can be grown. Large, yellow, juicy and excellent quality. Freestone.

GOLDEN JUBILEE. September. Large yellow, tender, juicy and sweet. Freestone. Tree unusually hardy.

HALE HAVEN. September. A promising new variety. Large yellow, very attractive, of good quality. Freestone.

J. H. HALE. Late September. An extra large peach, yellow, of delicious flavor. Freestone.

ROCHESTER. Early September. Large yellow, a very fine canner, prolific, and an early bearer. Freestone. Makes a low growing tree, and should be preferred where space is limited.

SOUTH HAVEN. Early September. Large yellow, prolific. Freestone.

VALIANT. Early September. Noteworthy because of rich delectable flavor. The fruit is large, yellow blushed with red, with firm juicy flesh. Freestone.

PEACH TREE COLLECTION (Group No. 5)

8 Peach Trees, 5 to 7 ft., Extra Heavy (1 of each listed) for only \$5.00.

NECTARINES

	Each	Per 3	Per 10	Per 25
Standard Trees, 1 year, 5 to 7 ft., Extra Heavy.....	\$1.00	\$2.70	\$ 8.00	\$18.00

SURE CROP. August-September. The melting, juicy texture of this smooth-skinned nectarine and its delicious flavor furnishes one of the most delightful fruits for eating during the summer. The fruits are as large as good-sized peaches, white, and overlaid with very attractive red.

APRICOTS

	Each	Per 3	Per 10	Per 25
Standard Trees, 2 year, 4 to 6 ft., Extra Heavy.....	\$1.00	\$2.70	\$ 8.00	\$18.00

	Each	Per 3	Per 10	Per 25
Standard Trees, 2 year, 4 to 5 ft.....	\$1.00	\$2.70	\$ 8.00	\$18.00

ORANGE. September. Bright golden yellow, of excellent quality. Delicious for jelly, jam and marmalade. The tree is dwarfish in growth, an early bearer, beautiful in the spring when covered with large silvery pink blossoms, and in the fall when loaded with golden fruit.

CRAB APPLES

	Each	Per 3	Per 10	Per 25
Standard Trees, 2 year, 5 to 7 ft., Extra Heavy.....	\$1.00	\$2.70	\$ 8.00	\$18.00

DOLGO. Early September. Fruit red, jellies easily, and makes a rich, ruby red jelly of excellent flavor. Bears young and heavily. The tree has a most striking appearance with its profusion of blossoms in the spring and its brilliant crimson fruit in the fall.

YOUNG AMERICA. September. Produces abundantly attractive red fruits of excellent size and quality. Jelly made from the fruit is a clear, beautiful red and splendidly flavored. Young America should be planted as ornamental as well as for its fruit.

ELDERBERRIES

The Elderberry of the fields has always been popular for pies and home-made wine. We offer now an Elderberry improved by the breeder's hand. Just as the common kind, it will succeed everywhere.

	Each	Per 3	Per 10	Per 25
Strong Plants, 2 year, Transplanted.....	\$.50	\$1.35	\$ 4.00	\$ 8.00

ADAMS ELDERBERRY. The fruit clusters and berries are exceptionally large, a splendid example of what the plant-breeder can do in improving native fruits. The shrubs at blossom time and when covered with fruit are beautiful enough to be used as attractive ornamental shrubs.

RHUBARB

It is fair to say that you don't know what Rhubarb is until you have tried these new varieties introduced recently from Canada.

	Each	Per 3	Per 10	Per 25
Large Roots, No. 1.....	\$.50	\$1.35	\$ 4.00	\$ 9.00

McDONALD. The stalks are up to 2 ft. long, many half as thick as your wrist. The skin is a bright red, and the inside flesh is white. It is very tender and has a rich flavor, far superior to common varieties. A tremendous yielder.

RUBY. The sweetest of all rhubarbs, solid red from top to bottom. The inside flesh, too, is colored. The stalks are smaller than McDonald.

RUBEL BLUEBERRIES (Actual Size)

Courtesy B. W. Keith

BLUEBERRIES

Blueberries have special soil requirements and are not adapted to so wide a range of soils as are the other fruits. Soils for blueberries should be loose in texture, well supplied with organic matter, and acid. If your soil does not meet these requirements this condition may be created by mixing with the surface soil a liberal quantity of peat moss, partially rotted leaves, pine needles, or sawdust.

Our Bearing-Age Blueberry Plants can be expected to bear some berries the first year planted. Plant different varieties for proper pollination.

	Each	Per 3	Per 10	Per 25
Strong Plants, Bearing-Age, Transplanted.....	\$1.50	\$4.20	\$12.00	\$25.00
" " 3 year, Transplanted.....	1.00	2.70	8.00	18.00

ADAMS. Begins to ripen its berries early in July and continues bearing for 5 weeks. The bushes are upright in growth (5 to 6 ft.). Berries are a deep blue-black.

PIONEER. An early variety, ripening its first berries a week ahead of Rubel or Adams. The berries are very large, many of them measuring over two inches around. The bushes are low (4 ft.), globelike in form. An ideal variety for gardens.

RUBEL. Has a very long fruiting season, beginning the forepart of July and lasting for 6 weeks. Upright in growth (5 to 6 ft.). Berries are sweet with a very rich flavor.

BUSH CHERRIES

These are attractive ornamental shrubs which produce edible fruit. However, the fruit cannot be compared with standard cherries with regard to their quality.

Bush Cherries are extremely hardy and bear fruit soon after planting, some of them the first year. Plant different kinds for proper pollination.

	Each	Per 3	Per 10	Per 25
Strong Plants, 2 year, Transplanted.....	\$.75	\$2.10	\$ 6.00	\$12.00

NANKING CHERRY. Masses of bloom, pink in bud, open a pure white, in early spring, before the leaves appear. An abundance of cherry-like brilliant red fruits covers this beautiful shrub in June. Grows to a height of 6-10 ft.

OKA CHERRY. A striking ornamental, bursting into a mass of small white blossoms in spring. Cherries are large as plums, almost black outside and dark red inside. Grows 10-15 ft. tall.

ROCKY MOUNTAIN CHERRY. Fruit is sweet, purple black, up to 1 inch in diameter, shaped like a plum. The bush is low and spreading, and bears well in poor soil. Bears the first year planted. Rarely growing over 5 ft. in height.

WALNUTS

We offer improved grafted nuts which are far superior to ordinary seedlings, due to uniform large size of the fruit, fine flavor, and good cracking quality. The trees require plenty of room.

	Each	Per 3	Per 10	Per 25
Grafted Trees, 4 to 6 ft., Extra Heavy.....	\$3.00	\$8.10	\$25.00	\$50.00

THOMAS BLACK WALNUT. One of the finest and largest black walnuts. The tree is a fast grower, and has given by far the best results of any varieties tested. It has the desirable tendency to bear nuts in clusters.

MAYETTE ENGLISH WALNUT. An extra fine diamond brand quality nut and fortunately a very hardy and reliable tree. The shell is thin, nut smooth, and kernel large and of fine flavor.

FILBERT NUTS

Filbert Nuts are the dwarf trees among the nuts. They grow no taller than an average peach tree, and begin to bear the first or second year planted. Most of our Bearing-Age Filbert Nut trees have already fruited in the nursery.

Plant Filbert Nuts in your shrub border. They will beautify your home surroundings, and they will yield nutritious fruit without requiring much care and room.

120 varieties of Filbert Nuts have been tested during recent years at the New York State Experiment Station, Geneva, N. Y., and less than a dozen were found of value for cultivation. We offer **Barcelona**, **Du Chilly**, and **White Aveline** which are among the successful varieties, and we recommend planting of different varieties for proper pollination.

	Each	Per 3	Per 10	Per 25
Strong Trees, Bearing-Age, 4 to 6 ft.....	\$1.50	\$4.20	\$12.00	\$25.00
" " 3 year, 3 to 4 ft.....	1.00	2.70	8.00	18.00

BOYSENBERRIES

This new kind of berries has created a sensation all over America. It is a cross between blackberries and raspberries, a tremendous bearer of immense berries, often up to 2 inches long, and almost seedless. They have a delicious sweet flavor, wonderful to eat or to can. Tie the canes for easy picking to a fence or along wires. The plants are hardy, but in severe sections the canes should be protected by straw or similar material.

	Per 10	Per 25	Per 100
Strong Plants, 2 year, Transplanted.....	\$1.50	\$3.00	\$9.00

THORNLESS BOYSENBERRIES

Exactly the same fine berry but it has no thorns. The canes are smooth as velvet. You can handle them with your bare hands and enjoy picking the fruits.

	Per 10	Per 25	Per 100
Strong Plants, 2 year, Transplanted.....	\$2.00	\$4.00	\$15.00

NEWBURGH RASPBERRIES. We think they are the most perfect berries among the Red.

RASPBERRIES

	Per 10	Per 25	Per 100
Strong Plants, 2 year, Transplanted.....	\$1.00	\$2.00	\$6.00

INDIAN SUMMER. Red. Everbearing Raspberry. Fruit commences to ripen with the earliest and continues to fruit until October. Large size, high quality. Will bear fruit the first year planted.

LATHAM. Red. Large, round, a perfect variety for canning.

MARCY. Red. One of the newest raspberries. The berries are the largest of any variety, mild in flavor and of good quality. Plants are hardy at Geneva, N. Y., only moderately hardy in more Northern sections.

MORRISON BLACK CAP. Black. A wonderful new variety. Enthusiastic reports are received of Morrison Black Cap berries averaging almost 1 inch across. Certainly a berry that you will be proud to produce.

NEWBURGH. Red. The fruit is very large, very firm, and does not crumble. The weight of the fruit is so great that the canes are often bent to the ground. The fruit is borne out in the open where it may be readily picked.

SODUS. Purple. Fruit large, firm, does not crumble. Possibly most productive of all raspberries.

TAYLOR. Red. Long, conical shape, firm, thick flesh, excellent quality.

BLACKBERRIES

	Per 10	Per 25	Per 100
Strong Plants, 2 year, Transplanted.....	\$1.00	\$2.00	\$6.00

ELDORADO. The hardiest and sweetest blackberry. Large berries in large clusters.

GOOSEBERRIES AND CURRANTS

Gooseberries and currants are fruits whose merits for the home garden and local market are not fully appreciated. They are easy to grow, and they occupy only a small amount of space. They may be grown in shady corners or under trees too shady for other plants, thus permitting complete utilization of a limited garden area. They are very hardy. Heavy, annual crops are the rule, and strong 2 year old plants may produce some fruit the first year planted.

	Each	Per 3	Per 10	Per 25
Strong Plants, 2 year, Transplanted.....	\$.50	\$1.35	\$ 4.00	\$ 8.00

DOWNING GOOSEBERRY. A large, handsome fruit, green in color, thin skinned, tender, juicy, and sweet. An immense cropper, and free of mildew.

POORMAN GOOSEBERRY. Fruit dark red, large and very attractive. Until one is acquainted with the Poorman gooseberry, one does not realize how delicious a gooseberry may be. It requires a rich soil, and does not grow well on very light, sandy soils, where Downing should be preferred.

RED LAKE CURRANT. A new red currant, far superior to all other varieties. Berries are unusually large, up to 1/2 inch diameter. The clusters are up to 6 inches long and filled out to the top with 8 to 10 juicy melting berries on each cluster.

WHITE GRAPE CURRANT. White currants are fine for dessert because of their mild flavor. You will like to eat them.

GRAPES

Our Grape Vines are beautiful plants. Many of them bear fruit the first year planted.

	Each	Per 3	Per 10	Per 25
Strong Vines, 2 year, Extra Heavy.....	\$.50	\$1.05	\$ 4.00	\$ 8.00

AGAWAM. A large red grape with rich aromatic flavor.

CACO. This new grape is fast becoming a favorite. It yields astonishing harvests, large bunches of enormous gleaming grapes, deep rich red. Their flavor is exceptional, full, sweet, and refreshing.

CONCORD. The leading commercial grape. Color blue-black. Bunches and berries large. Excellent for grape juice.

NIAGARA. The most popular white grape with large bunches and berries.

NEW GRAPES

	Each	Per 3	Per 10	Per 25
Strong Vines, 2 year, Extra Heavy.....	\$1.00	\$2.70	\$ 8.00	\$18.00

CONCORD SEEDLESS. Fruit resembles Concord in color and flavor but berries are seedless. Clusters and berries are small.

GOLDEN MUSCAT. The most amazing variety ever introduced. Clusters are of immense size, up to 2 pounds, and very similar to California grapes. Berries are large, a beautiful light golden color, sweet, vinous, with a fine muscat aroma.

KEUKA. A new red variety of California-European parentage, noted for high quality. The flesh is crisp and juicy with a sweet vinifera flavor, and scarcely separates from the tender skin so that the berries may be eaten with the skin.

SENECA. A wonderful new white grape of California type. Its firm, crisp berries, combined with a sweet delicious flavor, make it the very finest table grape of all. The tender skin can be eaten with the berry.

THE HOME VINEYARD (Group Offer No. 6)

**8 Grapes, Strong Vines, 2 year, Extra Heavy, 1 of each variety
previously listed for only \$5.00.**

JUNEBERRIES. Note the profusion of berries covering the shrub.

JUNEBERRIES

This is an interesting type of berry that can be recommended for ornamental purposes as well as for use of their fruit. They are easily cultivated in any average garden soil, and they bear heavy annual crops. The plants are very hardy. They grow no more than 3 ft. high. The fruit is purplish-blue, almost black, very similar to a blueberry, sweet and with an excellent aroma. It ripens late in June or early July.

	Each	Per 3	Per 10	Per 25
Strong Plants, No. 1.....	\$.50	\$1.35	\$ 4.00	\$ 9.00

THE BERRY GARDEN (Group Offer No. 7)

This berry garden will bear fruit the first year planted. A full crop of berries can be expected the following year and for many years to come.

- 10 Everbearing Indian Summer Red Raspberries
- 10 New Morrison Black Cap Raspberries
- 10 Eldorado Blackberries
- 10 Gooseberries (5 Downing and 5 Poorman)
- 10 Currants (5 Red Lake and 5 White Grape)

Total 50 Berry Plants for only \$9.00.

BERRY-BEARING SHRUBS

These are ornamental shrubs which have beautiful blossoms in spring—followed by attractive berries in summer, fall, and winter, providing natural bird food. They attract birds which are your best help in curbing insect damage. Plan to have a border of berry-bearing shrubs—FOR BIRDS AND SONG, FOR BETTER FRUITS AND MORE BEAUTY.

	Each	Per 3	Per 10	Per 25
Heavy, 2 year shrubs, 2 to 3 ft. and 3 to 4 ft.....	\$.60	\$1.65	\$ 5.00	\$10.00

(Listed in order of ultimate height)

Will grow

RED-LEAF BARBERRY (<i>Berberis Thunbergi atropurpurea</i>). A colorful barberry with yellow flowers in spring, brilliant red foliage throughout summer and fall, and red berries during winter. Plant in full exposure to sun for best color effect.	4- 5 ft.
JETBEAD (<i>Rhodotypos kerrioides</i>). A graceful shrub which produces attractive white flowers on branch ends more or less continuously from late spring until frost. The black berries hang on until following spring. Does well in dry and partially shaded soil.	4- 5 ft.
RUGOSA ROSE (<i>Rosa rugosa</i>). A shrub type of roses with large single reddish-purple flowers from May to September and brilliant large brick-red fruit.	4- 6 ft.
SNOWBERRY (<i>Symphoricarpos racemosus</i>). Large white berries cover the shrub in September and October. Does well in shady places.	4- 6 ft.
CORALBERRY (<i>Symphoricarpos vulgaris</i>). Small pink flowers in spring followed by coral red berries in October and November.	4- 6 ft.
SWEETBRIAR ROSE (<i>Rosa rubiginosa</i>). A charming shrub rose, unique by the sweet fragrance of its leaves, especially when wet. Flowers are single pink, followed by red fruits.	5- 8 ft.
CORAL DOGWOOD (<i>Cornus alba sibirica</i>). Coral-red branched, upright growing shrub which does well in shady places. Flat white flowers and clusters of bluish tinted white berries.	8-10 ft.
CUT-LEAF ELDER (<i>Sambucus canadensis acutiloba</i>). A cut-leaf form of the American Elder. White flower clusters 10 inches across in late June, and an abundance of purplish black fruit thereafter. Does well in partial shade.	8-10 ft.
AMUR PRIVET (<i>Ligustrum amurense</i>). A dense shrub with dark green leaves and white flowers on erect panicles, followed by bluish black berries.	8-12 ft.
AMERICAN CRANBERRY BUSH (<i>Viburnum americanum</i>). Flat clusters of white flowers and brilliant red berries. Late in summer the foliage becomes beautifully reddened.	8-12 ft.
DOWNY SHADBLOW (<i>Amelanchier canadensis</i>). Early in the spring, before most other shrubs bloom and before its own leaves appear, this shrub has a wonderful display of beautiful white flowers. Bright red berries follow in profusion during June. The shrub does well in shady places.	10-15 ft.
PEKING COTONEASTER (<i>Cotoneaster acutifolia</i>). Small reddish flowers are followed by black fruit and brilliant fall coloring.	10-15 ft.
TARTARIAN HONEYSUCKLE (<i>Lonicera tatarica</i>). Strong upright grower. Covered in spring with pink flowers, in summer and fall with red berries.	10-15 ft.
EUROPEAN CRANBERRY BUSH (<i>Viburnum opulus</i>). A distinguished shrub with white flowers and scarlet clusters of juicy berries. Beautiful crimson foliage in fall.	10-15 ft.
BURNING BUSH (<i>Euonymus europaeus</i>). A quite unusual shrub. After the beautiful reddish autumn foliage has fallen, pink fruits which break open displaying bright orange seeds hang all over the shrub like tiny Christmas ornaments.	12-15 ft.

THE BIRD PARADISE (Group No. 8)

15 Berry-Bearing Shrubs (1 of each listed) for only \$6.50.

If you do not want the entire collection, select just those you wish at 3 for \$1.65.

HYDRANGEA HILLS OF SNOW, a grand shrub, native in America. Single or in groups, it is a beauty spot wherever planted.

FLOWERING SHRUBS

This is a selection of our finest flowering shrubs. Plant them around your home or along your border for year around beauty.

	Each	Per 3	Per 10	Per 25
Heavy, 2 year shrubs, 2 to 3 ft. and 3 to 4 ft.....	\$.60	\$ 1.65	\$ 5.00	\$ 10.00

(Listed in order of ultimate height)

Will grow

- DWARF RED SPIREA** (Spirea Anthony Waterer). Flat heads of red flowers almost all summer. A popular shrub which succeeds everywhere, also in partly shady places. 3- 4 ft.
- RED WEIGELA** (Weigela Eva Rathke). A fountain of crimson with its rich bell-shaped, ruby-red flowers covering the whole shrub. 4- 5 ft.
- PINK BUTTERFLY BUSH** (Buddleia Charming). Elegant long sprays covered with lovely lavender-pink blossoms throughout the summer and autumn. 4- 5 ft.
- PURPLE BUTTERFLY BUSH** (Buddleia Isle de France). The same shrub with dark claret-purple flowers. 4- 5 ft.
- HILLS OF SNOW** (Hydrangea arborescens grandiflora). This grand shrub is especially fine for shady places like the north side of a house. In mid-summer it is covered with immense rounded heads of white flowers. See illustration. 4- 5 ft.
- BOUQUET BLANC MOCKORANGE** (Philadelphus Bouquet Blanc). A graceful shrub with slender branches and a myriad of fragrant white flowers that make the plant look like a large bouquet in June and July. 4- 5 ft.
- DOUBLE GLOBE FLOWER** (Kerria japonica flore pleno). Golden yellow, rose-like double flowers in June and scattered flowers until late fall on slender branches. One of the most beautiful shrubs. Does well in partial shade. 4- 5 ft.
- SWEET SHRUB** (Calycanthus floridus). A large leaved shrub with spicy fragrant, chocolate colored flowers. Thrives well in shady locations. 4- 5 ft.

FLOWERING SHRUBS—Continued

Will grow

BEAUTY BUSH (<i>Kolkwitzia amabilis</i>). A charming oriental shrub with bell-shaped pink flowers, completely covering the shrub in the spring. Plant in good soil, and do not expect too much bloom for the first two years.	4- 6 ft.
F. J. GROOTENDORST ROSE (<i>Rosa F. J. Grootendorst</i>). A hardy shrub rose with clusters of bright red flowers all summer. Succeeds everywhere.	4- 6 ft.
RED-FLOWERING QUINCE (<i>Cydonia japonica</i>). This is the old-fashioned Fire-Bush. A gorgeous sight with its scarlet blossoms.	5- 6 ft.
WHITE SPIREA (<i>Spirea van Houttei</i>). America's most popular shrub. Succeeds everywhere.	5- 6 ft.
GOLDEN ROSE OF CHINA (<i>Rosa hugonis</i>). A beauty spot in June, when the graceful arching branches of this hardy rose shrub are covered with single golden flowers, 2½ inches across.	5- 8 ft.
DEUTZIA (<i>Deutzia Pride of Rochester</i>). A splendid shrub which grows in sun or partial shade; at blooming time in June, a perfect mass of lovely double flowers of white tinged pink.	6- 8 ft.
PINK WEIGELA (<i>Weigela Hendersoni</i>). Beautiful, bell-shaped pink flowers, borne profusely along arching branches.	6- 8 ft.
VIRGINAL MOCKORANGE (<i>Philadelphus Virginal</i>). A wonderful shrub with waxy semi-double flowers, the largest and most fragrant of all mockoranges, blooming for a long season.	7- 8 ft.
EVERBLOOMING TAMARIX (<i>Tamarix hispida</i>). One of the finest of all shrubs. The graceful feathery foliage is of silvery-blue color, and rosy pink flowers appear all summer. Note: Cut back branches to at least half of their length at planting. This will insure successful growth.	8-10 ft.
ROSE TREE OF CHINA (<i>Prunus triloba</i>). This beautiful shrub is completely covered with double, pink flowers resembling small roses in early spring.	8-10 ft.
PEEGEE HYDRANGEA (<i>Hydrangea paniculata grandiflora</i>). The immense cone-shaped blooms are white at first, then turn pink and bronze. Grows in sun or partial shade and is hardy everywhere.	8-10 ft.
CHINA LILAC (<i>Syringa chinensis</i>). Slender arching branches bear large broad clusters of fragrant purple-lilac flowers. Different from any other lilac and very attractive.	8-10 ft.
GOLDEN BELL (<i>Forsythia intermedia</i>). Masses of bright yellow flowers before the leaves appear, sometimes before the snow is gone. You may cut branches on a frost-free day any time after January. Place them in water and they will bloom indoors long before spring arrives.	8-10 ft.
SWEET MOCKORANGE (<i>Philadelphus coronarius</i>). An old favorite with all gardeners. Fragrant cream-white flowers in May-June.	8-10 ft.
SNOWBALL (<i>Viburnum opulus sterilis</i>). Hundreds of pure white balls cover this popular shrub which thrives in sun or partial shade.	10-12 ft.
DOUBLE FRENCH LILAC (<i>Syringa vulgaris</i> hybr.) Large flowering, double, very fragrant. Colors are pink, white, and blue. They begin to bloom the year after planting.	10-12 ft.
PURPLE LILAC (<i>Syringa vulgaris</i>). The old-fashioned single lilac, delightfully fragrant.	12-15 ft.

THE EVERBLOOMING SHRUB BORDER (Group No. 9)

By planting many different varieties your shrub border may be in bloom from early spring until late fall.

25 Flowering Shrubs (1 of each previously listed) for only \$10.00.

If you do not want the entire collection, select just those you wish at the following prices: 3 for \$1.65, 10 for \$5.00.

McGREDY'S YELLOW. An outstanding Rose, perfect in form and color.

EVERBLOOMING ROSES

Extra Heavy, Selected Bushes, 2 year, field-grown	Each	Per 3	Per 10	Per 25
No. 1	\$.75	\$2.10	\$ 6.00	\$14.00

AMI QUINARD. Velvety blackish-crimson, very fragrant. An abundant bloomer.

BETTY UPRICHARD. The coppery buds open into flowers of unusual size and beauty. Inside of petals light salmon, with brilliant orange and carmine outside.

CALEDONIA. Very double, wax-white, large flower—an abundant and continuous bloomer.

CHAS. K. DOUGLAS. Large, full, rich crimson-scarlet flowers on long, strong stems.

CONDESA de SASTAGO. A marvelously colored rose with large flowers of fiery copper-red inside and rich yellow outside.

DAME EDITH HELEN. Large, full flowers, soft creamy pink, deepening to dark rose pink.

E. G. HILL. A good producer of beautiful blooms of dazzling scarlet, deepening to darker red as they open. Very fragrant and lasting.

ETOILE DE HOLLANDE. The immense buds open into very double flowers of intense bright red with velvety sheen. Very fragrant and a free bloomer.

GRENOBLE. Large, scarlet-red flowers without shading on long stems.

EVERBLOOMING ROSE COLLECTION

(Group Offer No. 10)

25 Everblooming Roses, Extra Heavy, Selected Bushes, 2 year, field-grown, No. 1. (1 of each listed) for only \$14.00.

If you do not want the entire collection, select just those you wish at the following prices: 3 for \$2.10. 10 for \$6.00.

EVERBLOOMING ROSES—continued

- HINRICH GAEDE.** Orange-yellow, flushed with nasturtium-red, richly fragrant. Blossoms freely and continuously.
- JOANNA HILL.** Very double bloom with Indian-yellow center surrounded by gold buff petals.
- KAISERIN AUGUSTA VICTORIA.** Splendid large buds and superb double blooms of pure creamy white. A continuous bloomer, unsurpassed for cutting.
- LADY ASHTOWN.** A much-admired rose whose large, long-pointed buds open to perfect carmine-pink blooms with a golden underglow.
- LUXEMBOURG.** One of the best yellows. Buds long and pointed, with blooms of deep bronzy yellow, very full and lovely.
- MARGARET McGREDY.** Brilliant red, with golden base. Blooms profusely.
- McGREDY'S SCARLET.** Vivid rose-red, with a blazing scarlet sheen. Large flowers of perfect shape.
- McGREDY'S YELLOW.** Clear, bright yellow flowers, perfectly shaped. See illustration page 19.
- MEVROUW G. A. VAN ROSSEM.** Radiant, apricot-colored buds opening to bright, golden yellow flowers streaked with orange. Very fragrant.
- MISS ROWENA THOM.** Blooms of brilliant satiny pink, orange-flame center.
- MRS. E. P. THOM.** A clear, deep canary-yellow without shading, in large well-formed flowers. An excellent bloomer.
- MRS. HENRY MORSE.** The fragrant flowers are large, full, silvery-pink with tints of yellow.
- MRS. PIERRE S. DU PONT.** One of the best yellows. Bud reddish-yellow, flower deep golden-yellow, fragrant. A profuse and continuous bloomer.
- PRESIDENT HERBERT HOOVER.** A blend of flame and yellow varying from coppery red in bud to dazzling cerise pink and orange yellow in full bloom. Very large flowers. A free bloomer with good stems.
- RADIANCE.** A universal favorite, producing an almost continuous supply of silvery to deep pink blooms of lovely form.
- ROSLYN.** Deep golden-yellow flowers, borne singly on long strong stems. A good bloomer.

CLIMBING ROSES

Ideal to cover a porch, arbor, or fence with beautiful roses.

	Each	Per 3	Per 10	Per 25
Extra Heavy, Selected Bushes, 2 year, field-grown				
No. 1	\$.75	\$2.10	\$ 6.00	\$14.00

GARDENIA. Rich creamy yellow.

MARY WALLACE. Brilliant warm pink flowers, very lovely. Usually blooms in spring only but often will give a few blooms again in fall.

PAUL'S SCARLET. The most beautiful red climbing rose. Its bright scarlet flowers are produced so abundantly that the plants are covered with many hundreds of blooms.

HEDGES

	Per 10	Per 25	Per 100
AMUR PRIVET. Perfectly hardy privet. It can be trimmed to any desired height. Plant 1 ft. apart. Bushy plants, 18-24 in.	\$1.50	\$3.50	\$12.00
CALIFORNIA PRIVET. Rich green leaves which remain on the plants almost all winter. Not quite hardy in severe sections. Plant 1 ft. apart. Bushy plants, 18-24 in.	1.20	2.50	9.00
WHITE SPIREA (Spirea van Houttei). Makes a beautiful flowering hedge. Plant 2 ft. apart. Bushy plants, 18-24 in.	2.50	5.00	15.00

PURPLE WISTERIA

Courtesy E. Steinemann

FLOWERING VINES

	Each	2 for	10 for
BOSTON IVY (<i>Ampelopsis Veitchii</i>). Clings closely to any wall without support. The leaves grow very thickly overlapping each other, forming a tapestry of rare charm which changes in autumn to beautiful shades of crimson and yellow.	\$.50	\$.90	\$ 4.00
DUTCHMAN'S PIPE (<i>Aristolochia Siphon</i>). A magnificent vine which produces very large, heart-shaped leaves and purplish blossoms, resembling a miniature pipe. Grows in sun and shade. Especially fine for porch and arbor as it makes a perfect shade.	1.00	1.80	8.00
EVERBLOOMING HONEYSUCKLE SUMMER KING . From June to October the plants are covered with hundreds of fragrant flowers, flame-scarlet outside and gold inside. Equally fine for porch, trellis, or fence. It is perfectly hardy, and thrives in sun or partial shade. Guaranteed to bloom next summer.	.75	1.40	6.00
HALL'S HONEYSUCKLE . Produces fragrant white and yellow flowers all summer. Thrives in sun or partial shade.	.50	.90	4.00
SILVER LACE VINE . The fastest growing hardy vine, usually growing 15 to 20 feet the first year. From the middle of summer until late fall covered with thousands of small white flowers.	.75	1.40	6.00
PURPLE WISTERIA . Just look at the picture on this page which we received with this report: "The wisterias which you sent us a few years ago cover now completely our porch up to the windows in the second floor, and they have hundreds of blossoms." We offer grafted plants of the Chinese Wisteria which is characterized by large fragrant flowers. They come into bloom very young, and all the flowers in each cluster open at about the same time before any leaves appear.	1.00	1.80	8.00
TRUMPET VINE (<i>Bignonia radicans</i>). Orange-red, trumpet-shaped blossoms make it one of our most decorative vines. The flowers are 5 to 6 inches long. They appear in clusters for many weeks in midsummer.	.75	1.40	6.00

GARDEN ARISTOCRATS

This is a collection of lovely ornamentals, shrubs and trees of outstanding beauty, for specimens on your lawn. Plant them where nothing else will interfere with them.

(Listed in order of ultimate height)

	Will grow	Actual Size	Each	2 for	10 for
AMERICAN SMOKE TREE (Purple Fringe). One of the most beautiful and unusual plants. From mid-summer until autumn surmounted with masses of feathery panicles of flowers which give the effect of a dense cloud of smoke. Makes a unique specimen on the lawn.	12-15 ft.	3- 4 ft.	\$1.50	\$2.70	\$12.00
BECHTEL'S CRAB. A beautiful, double pink flowering crab with fragrant flowers in May-June, covering the whole tree.	12-15 ft.	4- 5 ft.	1.50	2.70	12.00
BLOOD-LEAF PLUM (<i>Prunus cistena</i>). A new colorful shrub with deep purple leaves all season. Even the bark itself and the wood is purple. Its unusual foliage makes an attractive contrast to the green of the lawn. The shrub is very hardy.	12-15 ft.	3- 4 ft.	1.25	2.40	10.00
FRENCH PUSSY WILLOW. Snow may still cover your lawn when you cut your first spring bouquets from your Pussy Willow trees. Soft and silvery, large catkins cover the tree for many weeks.	12-15 ft.	3- 4 ft.	1.00	1.80	8.00
RED LILAC LUDWIG SPAETH. Beauty and fragrance of this French Lilac are unexcelled. The large blossoms are of splendid dark purplish red color.	12-15 ft.	3- 4 ft.	1.25	2.40	10.00
WASHINGTON CHERRY (<i>Prunus Kwanzan</i>). These Double Flowering Cherries are like a symbol of spring time, charm, and beauty. Dark pink, very double flowers, up to 2 inches in diameter. See illustration page 23.	12-15 ft.	4- 5 ft.	2.50	4.50	20.00
CORNELIAN CHERRY (<i>Cornus mas</i>). Clusters of yellow flowers cover this shrub long before spring arrives. Almost overnight the shrub bursts into blossom, later bearing red edible fruit resembling small cherries.	15-20 ft.	2- 3 ft.	1.00	1.80	8.00
HOPA TREE (Red Flowering Crab). The tree is literally covered by large, rose-colored, fragrant flowers in the spring, and clusters of bright red fruits in late summer and fall. A very hardy tree which grows even on the poorest soil.	20-25 ft.	4- 5 ft.	1.50	2.70	12.00
JUNE LILAC YELLOW DREAM (<i>Syringa japonica</i>). This is one of the rarest kinds of lilacs and a tree of unusual beauty. The majestic clusters of yellowish-white flowers appear in June and last for a long time.	20-25 ft.	3- 4 ft.	2.00	3.60	16.00
MAY DAY TREE. This tree was introduced recently from Siberia, and it is fast becoming a favorite in this country. Very early in spring, earlier than most other flowering trees, the May Day Tree is in bloom. Its pure white and very fragrant flower-clusters make a beautiful sight, and they are fine for cutting.	20-25 ft.	3- 4 ft.	1.50	2.70	12.00

GARDEN ARISTOCRAT COLLECTION (Group No. 11)

for only \$12.00.

DOUBLE FLOWERING CHERRIES—A Symbol of Spring Time

ORNAMENTAL AND SHADE TREES

(Listed in order of ultimate height)

	Will grow	Actual Size	Each	2 for	10 for
MOUNTAIN ASH. One of the most ornamental of all trees. Clusters of flashy orange colored fruits from midsummer until late fall.	20-40 ft.	6- 8 ft.	\$2.50	\$4.50	\$20.00
FLOWERING CATALPA (<i>Catalpa speciosa</i>). Rapid growing tree with large heart-shaped leaves and panicles of white flowers in June.	30-40 ft.	8-10 ft.	1.25	2.40	10.00
WHITE BIRCH. The gleaming white bark is beautiful summer and winter.	30-40 ft.	6- 8 ft.	2.00	3.80	18.00
CUT-LEAF WEEPING BIRCH. A graceful, white barked tree with drooping limbs and cut-leaved foliage.	30-40 ft.	8-10 ft.	3.00	5.50	25.00
PURPLE LEAF MAPLE (<i>Acer Schwedleri</i>). In the spring the foliage is reddish-purple, in midsummer it is bronzy-green, and in the fall golden-yellow.	40-50 ft.	8-10 ft.	3.00	5.50	25.00
WEeping WILLOW. Rapid growing tree with golden yellow bark which makes the tree attractive throughout summer and winter.	40-50 ft.	6- 8 ft.	1.50	2.70	12.00
CHINESE ELM. A hardy, rapid grower. Slender branched, compact habit of growth with small attractive leaves.	40-50 ft.	8-10 ft.	2.00	3.80	18.00
NORWAY MAPLE. The rich green foliage turns to a light yellow in the fall.	50-60 ft.	8-10 ft.	2.50	4.50	20.00
SILVER MAPLE. The fastest growing of the maples. Foliage silvery on the underside, and beautifully colored in the fall. Provides good shade very quickly.	60-80 ft.	8-10 ft.	1.50	2.70	12.00
LOMBARDY POPLAR. Narrow-growing tree, likewise effective for specimen planting as for boundary lines and driveway entrances.	60-80 ft.	8-10 ft.	1.00	1.80	8.00

FOR SHADE AND BEAUTY (Group No. 12)

10 Ornamental and Shade Trees (1 of each previously listed)
for only \$15.00.

POLLINATION OF FRUIT TREES

The value of pollination in the production of a fruit crop is now well recognized. Although many varieties are self-fruitful, experiments show that they are greatly benefited by cross-pollination.

Here are some brief remarks on how to select your varieties.

APPLES: Most varieties need cross-pollination. Plant therefore at least two different varieties. Good pollinators are Cortland, Delicious, Macoun, and Wealthy. Include one of these varieties in your planting.

PEARS: Plant at least two different varieties for proper pollination. Bartlett and Seckel do not pollinate each other. Where these two varieties are planted, a third variety should be included.

PLUMS: Abundance and Burbank need cross-pollination. They pollinate each other. All other varieties which we offer are self-fruitful.

CHERRIES: Sweet Cherries need cross-pollination. Plant at least two different varieties. All Sour Cherries are self-fruitful.

PEACHES, NECTARINES, APRICOTS: They are self-fruitful. However, crops will be increased by planting different varieties for pollination.

FILBERT NUTS, BUSH CHERRIES, BLUEBERRIES: They need cross-pollination. Plant two or three different varieties to insure satisfactory crops.

Most other kinds of fruit trees and berries are self-fruitful.

For complete information we refer to Circular No 132 issued by New York State Experiment Station, Geneva, N. Y. They will be glad to send you a copy free of charge if you ask for it.

PLANTING INSTRUCTIONS

We send you a valuable Planting Guide free with every order.

SUBSTITUTION

Occasionally we find ourselves out of a certain variety. In such cases we always send the nearest match in color and season unless you instruct not to substitute.

PRICES AND TERMS

Prices are F.O.B. Geneva, N. Y. Stock will be packed free of charge. Please send cash with order or we will ship C.O.D. if desired.

Quantity rates apply to quantities of ONE kind, one or different varieties. Example: An order on 10 apples in as many varieties as you want takes the rate per 10. An order on 3 apples, 3 pears, 3 cherries, and 3 plums, your choice of varieties, takes the rates per 3.

PREPAID SHIPMENTS

If you want us to prepay postage or express charges, please add 10% to the total of your order.

Do not add any amount when you order the Prepaid Special from page 4.

SPECIAL PRICES

Please write for special prices on larger quantities.

OUR REFERENCES
